TENNIS

OMNICOURT®

Omnicourt® Super7 PE is one of the best-selling tennis courts in the Asia Pacific region.

It offers unsurpassed value for money and is aesthetically pleasing with a wide colour palette available.

An all rounder, **Omnicourt® Super7 PE** is ideal as a multisport surface.

Finally, *Omnicourt® Super7 PE* is registered as an Australian Made® product, with the yarn being designed and manufactured in-house for Australian conditions.

CERTIFIED AND PREFERRED

APT Asia Pacific is an ISO 9001-certified manufacturer and has been for more than 25 years. All of our products undergo 100% final inspection to ensure compliance to our published specifications. In addition, many of our synthetic grass tennis surfaces are ITF-classified for pace rating.

KEY BENEFITS

- · ITF paced rated medium.
- · Excellent value for money.
- · Suitable for multisport applications.
- · Comes in a variety of colours.

Weight	1,000g/m²		
Pile Height	19mm		
Sand Infill Ratio	High		
Spin Response	Medium		
Ball Bounce	Medium low		

Super 10 HP

Omnicourt®Super 10 HP is an extremely durable, commercial grade synthetic grass tennis court system. Based on proprietary High Performance yarn, it is the culmination of years of research and development to withstand the harsh Asia Pacific climate.

KEY BENEFITS

- Proprietary PE yarn formulation for ultimate softness.
- Designed for commercial club use and high end residential applications.
- · Heavy weight PE resists crushing.
- · Ideal for tropical and subtropical climates.

Weight	1,150g/m²		
Pile Height	19mm		
Sand Infill Ratio	Medium		
Spin Response	High		
Ball Bounce	Medium		

I EN TE

All *Omnicourt®* tennis products are manufactured using proprietary yarns that are extruded inhouse and formulated to meet the demanding climatic conditions of the Asia Pacific region. This design extends even further to include proprietary masterbatch formulations for unparalleled colourfastness and UV resistance.

The formulations have proven to be far superior to most imported products as all yarns have been optimised for the harsh Australian climate.

APT Asia Pacific is one of the largest 100% vertically integrated synthetic surfacing manufacturers in the world. With this integration APT Asia Pacific is able to offer greater flexibility which can accommodate customers' needs and sets us apart from our competitors.

Omnicourt Pro PE

Omnicourt® Pro PE is an ITF-classified, high end synthetic grass tennis court system.

Tried and true, *Omnicourt Pro PE* has been a best seller for more than 15 years, and remains the choice for thousands of courts across Asia Pacific, from high end residential to multi-court club applications.

KEY BENEFITS

- ITF paced rated medium-fast.
- Suitable for high end residential and clubs.
- Aesthetically more of a 'grass' appearance.
- · Higher response to spin.

Weight	1,150g/m²		
Pile Height	16mm		
Sand Infill Ratio	Medium		
Spin Response	High		
Ball Bounce	Medium		

Pro 17

Omnicourt® Pro 17 is a heavy weight, high value polyethylene tennis court system.

Omnicourt® Pro 17 is a sister product to our *Omnicourt® Super 7PE*, made using the same machinery, but with the additional value of higher yarn content and less sand infill.

Due to its pile construction *Omnicourt® Pro 17* is ideal for tropical and subtropical climates where pile crushing during installation is a concern.

KEY BENEFITS

- Heavy weight PE yarn ideal for tropical climates.
- · Heavily resistant to crushing.
- Excellent aesthetics.
- · High response to spin.

Weight	1200g/m²			
Pile Height	17mm			
Sand Infill Ratio	Medium			
Spin Response	High			
Ball Bounce	Medium			

Pro coolplus

Omnicourt® Pro COOL plus® is the flagship of the **Omnicourt®** tennis range.

It combines all of the latest in-house yarn technology including texturized monofilament for superior aesthetics and **COOL** *plus*® for reduced heat generation.

The result is a tennis surface that mimics the best natural lawn courts with much lower maintenance demands.

KEY BENEFITS

- · Unique COOL plus® technology (see right).
- Texturized monofilament construction for maximum aesthetics and minimal appearance of sand.
- ITF pace rated medium-fast, although surface pace can be customised.

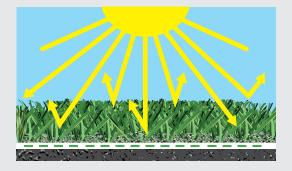

Weight	1,200g/m²
Pile Height	16mm
Sand Infill Ratio	Medium
Spin Response	Very high
Ball Bounce	Custom

Omnicourt® Pro COOL plus® features proprietary infrared-reflective **COOL plus®** sports yarn technology. Sunlight is comprised of a wide spectrum of radiation including visible light, UV radiation and infrared (IR).

Infrared radiation causes molecular vibration, which translates into heat energy when it is absorbed by an object. Our proprietary **COOL** plus® yarn technology does not absorb infrared rays, translating into less molecular vibration and cooler surface temperatures. Studies show **COOL** plus® surface temperatures are consistently 10–20% lower than the competitive systems. The result is better player comfort in direct sunlight.

Omnicourt® is a registered trademark of APT Corporation

Omnicourt® is proudly brought to you by APT Asia Pacific. Our mission is to provide high quality, innovative, customer driven surfaces for all types of sports.

Installing outdoor sports surfaces demands specific expertise, a high level of precision and experience. We therefore exclusively use pre-approved installers, whom employ specially trained staff to install our respective products. In doing this we ideally accommodate your specific conditions and therefore ensure that your Omnicourt® system has excellent performance characteristics over the entire surface.

Whatever your sports needs might be, we have a surface and solution for you.
